Ex-Dr. Eugene Gu Accused of Wife Beating

If you ever bother to look at the blue checks trolling underneath Donald Trump's tweets, you may have seen a personality who is always there in short order by the name of Dr. Eugene Gu. He is your basic bitch corporate Dem, agreeing with everything the left does, and by left, I mean Pelosi et al, and hating everything Trump does, even if it makes sense. The man is a partisan hack chasing clout in the replies. Now these facts don't make him interesting on his, after all, half of verified centrist twitter is trolling Trump for clicks. What is troubling is just who this man is, which is first of all not a doctor and second of all, a wife beater, allegedly. He was put on administrative leave, supposedly for posting a photo of himself kneeling in his scrubs to protest White supremacy.

> After an appeal, a May 17 letter to Gu from VUMC General Counsel Michael Regier—delivered at the request of Jeffrey Balser, president and CEO of VUMC—cited a "lack of sufficient improvement in performance and conduct in key areas" after the probation. The letter, which was obtained by The Chronicle, indicated that the most "significant areas of concern" were "patient care, communication, and medical knowledge."

This man is not licensed to practice medicine anywhere in America, and yet he's on twitter posing as a doctor, and is verified. Quite the problem, which leads to the wife beating.

> Recently, Donald Trump Jr. questioned whether the prominent liberal activist is a “Wife Beater” on Twitter. Trump Jr. quoted a since-deleted tweet that included a screenshot showing Gu was arrested on charges of domestic violence in 2015. Our investigation showed that Gu has not been convicted of domestic violence but was arrested on those charges February 3, 2015. A temporary domestic violence restraining order requested by his ex-wife on the basis of four alleged incidents was granted later that month. An expungement order from that May officially cleared Gu’s arrest record. In a statement to the Chronicle, Gu denied all related allegations.

To top it all off, he was one of those people who was defending the movie Cuties. So basically, the man is a complete scumbag loser. He shouldn’t have a twitter account trolling the President; he should be in Asia with his dog-eating friends where he doesn’t have to worry about White people being in charge. “Is he a progressive doctor fighting racism and the Trump administration? Or a Twitter troll who has relentlessly manipulated a woman he dated?” Um, the latter for sure.
